

Project acronym	B4B
Project full name	Brains for Building's Energy Systems
Grant No	M00I32004
Project duration	May 1, 2021- December 31, 2025

Deliverable D1.03a

Open library of standardized DBN models for the most common components & sensors / models / control in installations (Final)

Lead beneficiary	TU Delft
Lead authors	Ziao Wanga, Chujie Lu, Arjen Meijera, Shalika Walker, Laure Itard
Publication date	31 December 2025
Deliverable Status	FINAL
File name	B4B WP1 D1.03b Open library of standardized DBN models for the most common components sensors models control in installations (Final).docx

This deliverable has been published as a scientific article in [Energy and Buildings Volume 354](#), 1 March 2026, 116913

The project was carried out with a Top Sector Energy subsidy from the Ministry of Economic Affairs and Climate, carried out by the Netherlands Enterprise Agency. The specific subsidy for this project concerns MOOI subsidy round 2020
